of the Mind. Bread for the body and virtue for the soul, these are regarded as the indispensable requisits of human welfare here and hereafter. Nothing is said about knowledge and Education. Thomas Carlyel declared that he honoured only two men and no third. The manual labourer and the religious preacher. He forgot the scientist, the scholar and the artist. The cynics of Greece despised education and intellectual pursuit and declared that virtue was the only Good. Such an incomplete ideal has had many earnest men and women to neglect intellectual pursuits as unnecessary and superfluous. You should not allow your mind to be enslaved by such unsound theories of life, which would convert the best men and women into virtuous and holy animals. Ignorance is brutish knowledge is a peculiarly human prerogative. 10

A mother was reading a magazine and her cute little daughter energy now and then distracted her. To keep her busy she tore one page on which was pointed the map of the world. She tore it into pieces and asked her to go to her room and put them together to make the map again.

She was sure her daughter would take a lot more time and probably the whole of a day to get it done. But the little one came back within minutes with the perfect map.

When she asked how she could do it so quickly, she said, "Oh mother, there is a man's face on the other side of the paper. I made the face perfect to get the map right". She ran outside to play leaving the mother surprised.

Perhaps there is always the other side to whatever you experience in this world.

This event indirectly teaches a lesson, "Whenever we come across a challenges or puzzling situation look at the other side and will be surprised to see an easy way to tackle the problem as an acute difficulty. 10
