In 1947, a young American doctor named Jonas Salk became head of a project to study Polio virus at the University of Pittsburg. In those days in the United States, as in the rest of world, thousands of children fell prey to Polio each year. Many of the victims died, many more survived but became crippled for life : one notable example was former U.S. President F.D. Roosevelt who contracted the disease in 1921 and remained a cripple for the rest of his life.

In the 1930's attempts had been made to develop an effective Polio Vaccine but no one had succeeded in producing one. Dr. Jonas Salk began research on Polio vaccine and worked tirelessly to produce one himself. In 1953, he announced he was ready to test the vaccine he had prepared. The world is aware of the ill effects of Polio. India along with other countries is fighting its battle against Polio.

- (i) Which disease had spread in United States ?
- (ii) How did Polio affect President F.D. Roosevelt ?
- (iii) Who developed an effective Polio vaccine ? When ?
- (iv) How can we fight against Polio ?
- (v) Many of the victims died. (Write in past perfect tense). 5
